Palet warna yang terinspirasi by the most meaningful tones. Featuring an eternity braid design, these studs get a new colourful twist in six stones that correspond to the upcoming months of the year: October, November, December, January, February and March.

“ Our Stones of the Month designs are inspired by the idea of birthstones, which has really caught the attention and interest of our community this year. So it was an interesting idea to extend the existing design – it really works as an earring. The intricate knot design creates a cool earring, and the stone looks very juicy at

the center, with the colour standing out.”

BOTANICALLY INSPIRED

The latest addition to the Pandora Timeless collection echoes how nature combines shapes in flowers and plants. The inspiration came from the concept of a herbarium, a collection of dried flora pressed in a book, like a botanical album. By combining classic stone cuts and shapes with new ones, we created a whole new cluster motif that celebrates everlasting reminders of nature's beauty.

Choose sparkling clusters of stones inspired by the beauty of nature

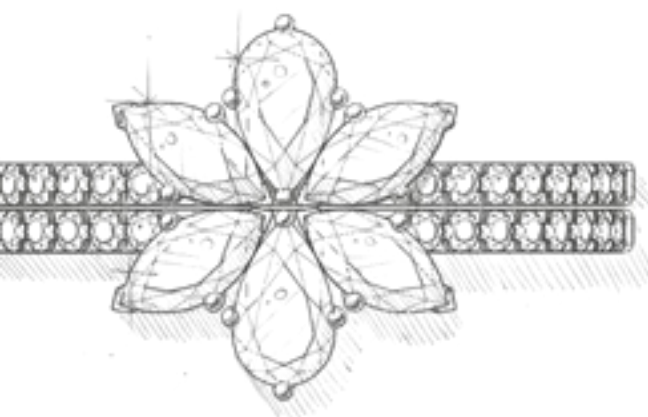

The design combines alternating marquise-shaped and pear-shaped stones around a central round stone to echo petal and leaf silhouettes. The marquise-shaped stones are capped with a V-shaped prong to accentuate their shape.
